What is a Live Prospect?

He is a man with a lot of questions in his mind. He wants to know Where and What and Who and How and When.

Thousands of live Prospects are looking in directories daily to find out

Where they can buy something?
What they can get for their money?
Whom they can buy it from?
How they can get it?

The time to sell a prospect is when he is alive. Make this book your Salesman to live prospects.

You Use a Directory

To tell you where to go
and how to get there.

The Road to Success is easy
to follow if you are consistent
in your efforts.

EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

OUT OF SIGHT! OUT OF MIND! OUT OF BUSINESS! . . . . .

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS' GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED ★

DO YOUR EMPLOYERS FURNISH YOU WITH THE LATEST EDITION OF THE CITY DIRECTORY?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

City Directory Dont's

DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.

* * *

DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

* * *

DON'T look mad when a customer asks to look at your Directory.

* * *

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

* * *

DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

* * *

DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

* * *

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including A Complete Street and Avenue Guide

1947

Copyright, 1948, by R. L. Polk & Co., Inc.

Giving the location of Streets, Avenues, Places, Parks, &c showing what other streets and places run from or across them, and with a list of Householders and Places of Business arranged in Numerical Order upon their respective Streets.

The Streets are arranged in Alphabetical order with the location of Intersecting Streets clearly shown.

The symbol ◎ following the name of a householder indicates that the house is owned by the person listed or by some member of the family. The 🔔 preceding names denotes householders and places of business having telephones. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

*Denotes houses incorrectly numbered.

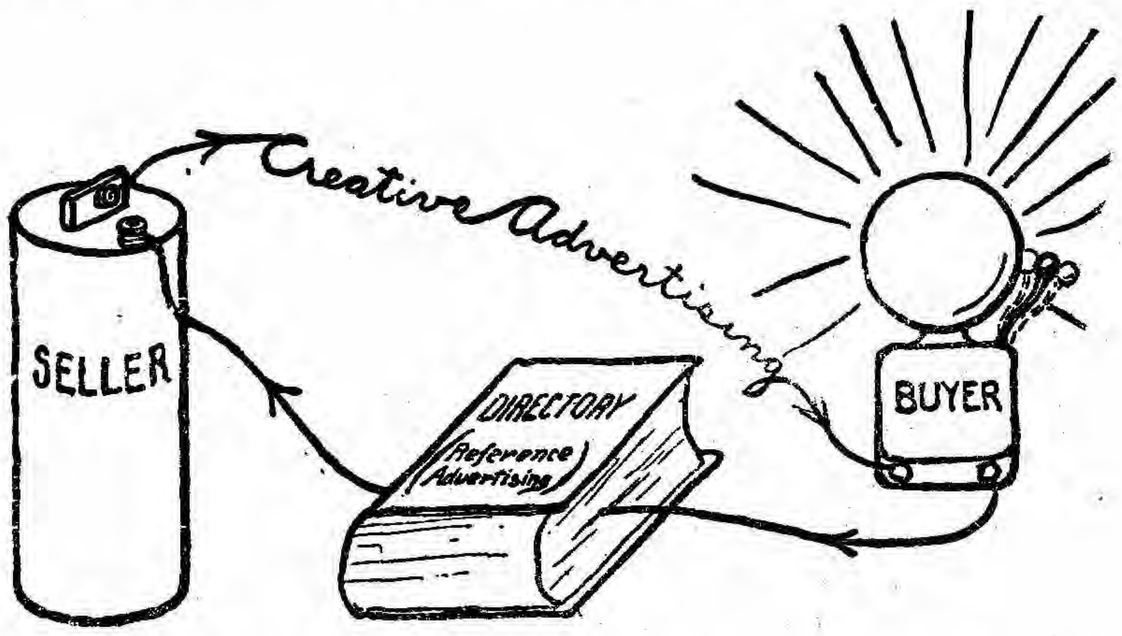
The Return Circuit in Advertising



The circuit must be completed before the bell will ring
The Buyer must find the Seller before a Sale is made

CREATIVE ADVERTISING—in newspapers, magazines, billboards etc., tends to suggest wants and to create desire.

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

THIS DIRECTORY is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

HAVE YOU MADE IT EASY FOR BUYERS TO FIND YOU?

Locating Missing Heirs Finding Lost Persons

This is only one of the many offices that a modern directory successfully fills

The Directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

FUNERALS CONDUCTED FROM ANY CHURCH

Funerals To Suit Every Pocketbook

Many thinking people are informing themselves on FUNERAL COST in advance of need.

The soundest reason for calling FONDA'S SON is the economy of service, not merely comparative prices.

They said: "Thanks to Fonda, our small insurance was sufficient to pay all our bills."

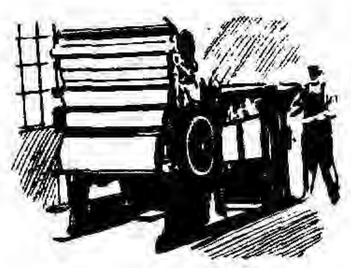
DIRECTORY PUBLISHERS FOR 750 CITIES

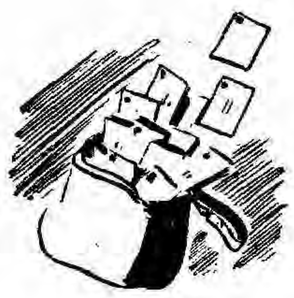
Polk City Directories have been the accepted basis for population listings in hundreds of American cities. These directories, compiled regularly, provide detailed information concerning the name, address, occupation and other important information about all adult residents of a city. In addition to local circulation, Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the U.S. and Canada. *The priceless ingredient of a City Directory is the accuracy with which it is made; accuracy is the product of experience; Polk has been compiling City Directories since 1870.*

DIRECT MAIL ADVERTISING FOR LEADING INDUSTRIES

Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's largest industries are Polk's long-time clients. Polk's direct mail advertising is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to selected prospects. Polk's production plants are geared to handle more than two million mailings daily. Included in its production facilities is the world's largest battery of imprinting presses and the world's largest installation of automatic typewriters. *Polk's direct mail advertising services are dedicated to helping business men produce increased sales volume.*



NATIONAL MAILING LISTS AND MAILING SERVICES



The people of America are in Polk's list files . . . all businesses, trades, professions, and vocations . . . obtained through personal canvass. Polk also lists all automobile and commercial vehicle owners—by make of car or truck, by model, by year, by state, county and city. Mailing lists of one kind or another, totaling more than 60,000,000 names a year, are compiled for Polk clients. Facilities for multigraphing, typing, letter-press or offset printing, questionnaires or letters, and complete addressing, imprinting and mailing services are available. *Polk can reach the right prospects DIRECT, with the right kind of message.*

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

Since 1922 Polk has been statistician for the automotive industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model, is the only annual inventory of the country's automotive equipment. Polk's new car passenger and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory . . . The first business census of the U.S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town. *Using Polk statistical services American business is able to plan intelligently its production, distribution and sales.*

SURVEYS AND CONSUMER RESEARCH

Fast, accurate research surveys and analyses, based on experience gained through nation-wide home and business canvasses, are provided by the Polk Consumer Research Division.

POLK BANKER'S ENCYCLOPEDIA

Polk's semi-annual directory of the banks of the nation is the outstanding Directory in the banking field. Polk reports on the condition of the nation's banks, their officers and directors, including a detailed statement on each bank, as well as listing investment dealers, stock exchange members, insurance companies, and other general financial data.
